

TÜRK LOYDU

Subj.: TMSA TRAINING - "TMSA requirements: A detailed analysis" on 24-25 November 2016

Dear Sirs,

We are pleased to announce the following two-day training course in Istanbul on 24-25 November 2016:

TMSA TRAINING - "TMSA Requirements: A Detailed Analysis"

The training course will be delivered by a well-respected professional, **Mr. Antonis Iordanidis**, Naval Architect & Marine Engineer, who is the General Manager of ALPHA MARINE CONSULTING LTD.

The workshop is co-organized by TÜRK LOYDU and ALPHA MARINE CONSULTING LTD.

This two-day "workshop" will provide to commercial and technical personnel, superintendents, shipmasters and seagoing officers of Tanker Shipping Companies, a deep understanding of the TMSA Requirements, as well as, the necessary skills to effectively deal with the "Best Practices guidance" established by OCIMF. Furthermore, the training is especially addressed to the Managerial staff of shipping companies, as being responsible for the overall evaluation of the process results.

The course combines lectures, presentations and interactive discussions with the Instructor. The course also includes several practical work-examples to raise awareness on issues that are considered critical for Tanker Shipping Companies. Action plans for the efficient rectification of shortcomings revealed during the inspections will also be discussed. Finally, the importance of following-up an inspection will be underlined and the methodology of writing effective responses will be covered.

The training cost per trainee will be 1650 TL + KDV, including handouts and lunch. Delegates will receive a certificate upon successful completion of the course.

The training will be held at **Türk Loydu Head Office Tuzla , Istanbul.**

We will appreciate your early registration by relevant contact details mentioned hereunder:
