

SC 100 Closing appliances of ventilation inlets and outlets

(1994)

(Rev.1
2001)

(Rev.2
Nov 2005)

(Corr.1

Aug 2014)

(Reg. II-2/5.2.21.1)

Ventilation inlets and outlets located at outside boundaries are to be fitted with closing appliances as required by Reg. II-2/5.2.21.1 and need not comply with Reg. II-2/9.7.3.1.

~~The controls are to be easily accessible as well as prominently and permanently marked and indicate whether the shut off is open or closed.~~
